PROFESSIONAL SUMMARY

Backend Developer with 8 years of experience delivering scalable, secure, and high-performance applications using Node.js, Laravel, and Symfony. Skilled in RESTful APIs, database optimization, and SAAS integrations across diverse industries.

TECHNICAL SKILLS

- Languages: Node, PHP, C, C++, JavaScript, HTML, JQuery
- Frameworks: Laravel, Symfony, Node.js, Express.js
- Databases: MySQL, MongoDB
- Tools: Postman, Git, NetBeans, VS Code, Atom
- Concepts: REST APIs, MVC Architecture, Routing, Middleware

ACADEMIC HISTORY

Atmiya Institute of Technology and Science | 2013-2017

B.E. (Information Technology)

WORK EXPERIENCE

Sr. PHP Developer | 2022-Present

O360 Solutions

Tech Stack: Node.js | Laravel

- Designed and maintained scalable backend modules using Node.js and Express.js for enterprise-grade applications.
- Integrated third-party APIs and optimized database queries for improved performance and reliability.

Sr. PHP Developer | 2021-2022

Ketencek IT

Tech Stack: Node.js | Symfony | Laravel

- Engineered scalable backend components for enterprise-level apps, leveraging Node.js and modern API standards.

Sr. PHP Developer | 2018-2021

HK Webtech

Tech Stack: Symfony | Laravel

- Implemented secure user authentication systems, backend services backend development for e-commerce applications.

Sr. PHP Developer | 2017-2018

Logistic Infotech Pvt. Ltd.

Tech Stack: Laravel

- Worked on backend development for gym applications.

KEY PROJECTS

Match Ground Ticketing System (Node.js, Express.js, MongoDB)

- Developed a smart ticketing platform for stadium seat booking with real-time seat selection, PDF ticket generation, and a RESTful APIs architecture to ensure seamless user experience.

E-Commerce Website (PHP, MySQL, HTML, JavaScript, Symfony, Laravel)

- Developed a dynamic e-commerce platform for clothing and accessories with product categorization, shopping cart, checkout process, and an admin dashboard for managing products and orders.
- Integrated a secure payment gateway to enable seamless transactions and implemented shipping portal APIs to automate order fulfillment.

ERP Website (PHP, MySQL, HTML, JavaScript, Symfony, Laravel)

- Developed a dynamic ERP web platform for wholesale operations, enabling dealers to place orders and automatically generate invoices. Integrated a secure payment gateway for seamless dealer transactions and connected a shipping portal API to automate order shipment processes.

Doctor Appointment System (Laravel, MySQL)

- Created a web-based platform to streamline medical appointment bookings, allowing patients to view doctor availability, select time slots, and schedule appointments online efficiently.

Exam Paper Generator (Laravel, LaTeX Integration, DOMPDF, MySQL)

- Designed a Laravel-based application to automate the creation of exam papers, integrating LaTeX for complex mathematical content and DOMPDF for generating high-quality PDFs.

SAAS Intergration Platform (Laravel, MySQL)

- Engineered a middleware solution to connect and synchronize data across multiple SaaS platforms (CRM, ERP, E-commerce), offering secure APIs, real-time webhook handling, and customizable data mapping.

DECLARATION

I hereby declare that the above-mentioned information is true to the best of my knowledge and belief.
